

Transform Your Vendor Management with Astrata

Say goodbye to the hassle of manual data entry and time-consuming vendor management. With Astrata and the Astrata Vendor Portal, managing your vendors has never been easier. From organizing vendor records to automating workflows, Astrata is designed to streamline your processes and save you time.

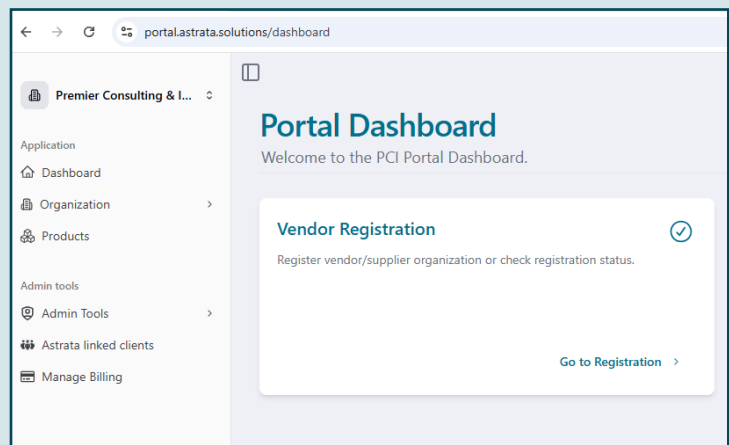

Automate Your Processes

Spend less time on tedious tasks and more time growing your business. Astrata's AI-powered tools make vendor management effortless:

- **Eliminate Data Entry:** Let Astrata Handle invoices and expenses by automatically importing them into Costpoint
- **Smart Workflows:** Route vendor expenses to our AI, which reads invoices, completes AP entries, and sets up vouchers for easy finalization (fully coded for your projects)
- **Bulk Vendor Additions:** Seamlessly add new vendors in bulk, saving hours of manual work

Simplify Vendor Management

- Effortlessly invite and organize vendors
- Access key vendor information, including addresses, tax documents, and payment details, with just one click
- Search a secure Astrata vendor database to quickly pull in accurate, up-to-date information
- Directly connected to Costpoint, Vendor data is updated in real time
- Notify Vendors of new requirements, expiring certifications, and company updates

One-Click Integration with Deltek Costpoint

Finalize your work in seconds. Completed vouchers can be sent directly to Costpoint for processing and approvals with just one click. It's that simple.

Transform the way you manage vendors. Experience the Astrata difference today and enjoy the peace of mind that comes with simplified vendor management.
